

mySchoolApp

**Your school in an app**

MySchoolApp is the application that brings the educational organization, the teachers, the students and the parents...

**Close**  **from afar!**

Why  
my**School**App

# Mobile first!

A **unique IT solution** for educational organizations, designed specifically for use via **smartphones and tablets.**

# User first!

A **complete IT solution** for educational organizations that fully meets the needs of **each role** within the educational ecosystem.

Administration

Teachers

Students

Parents

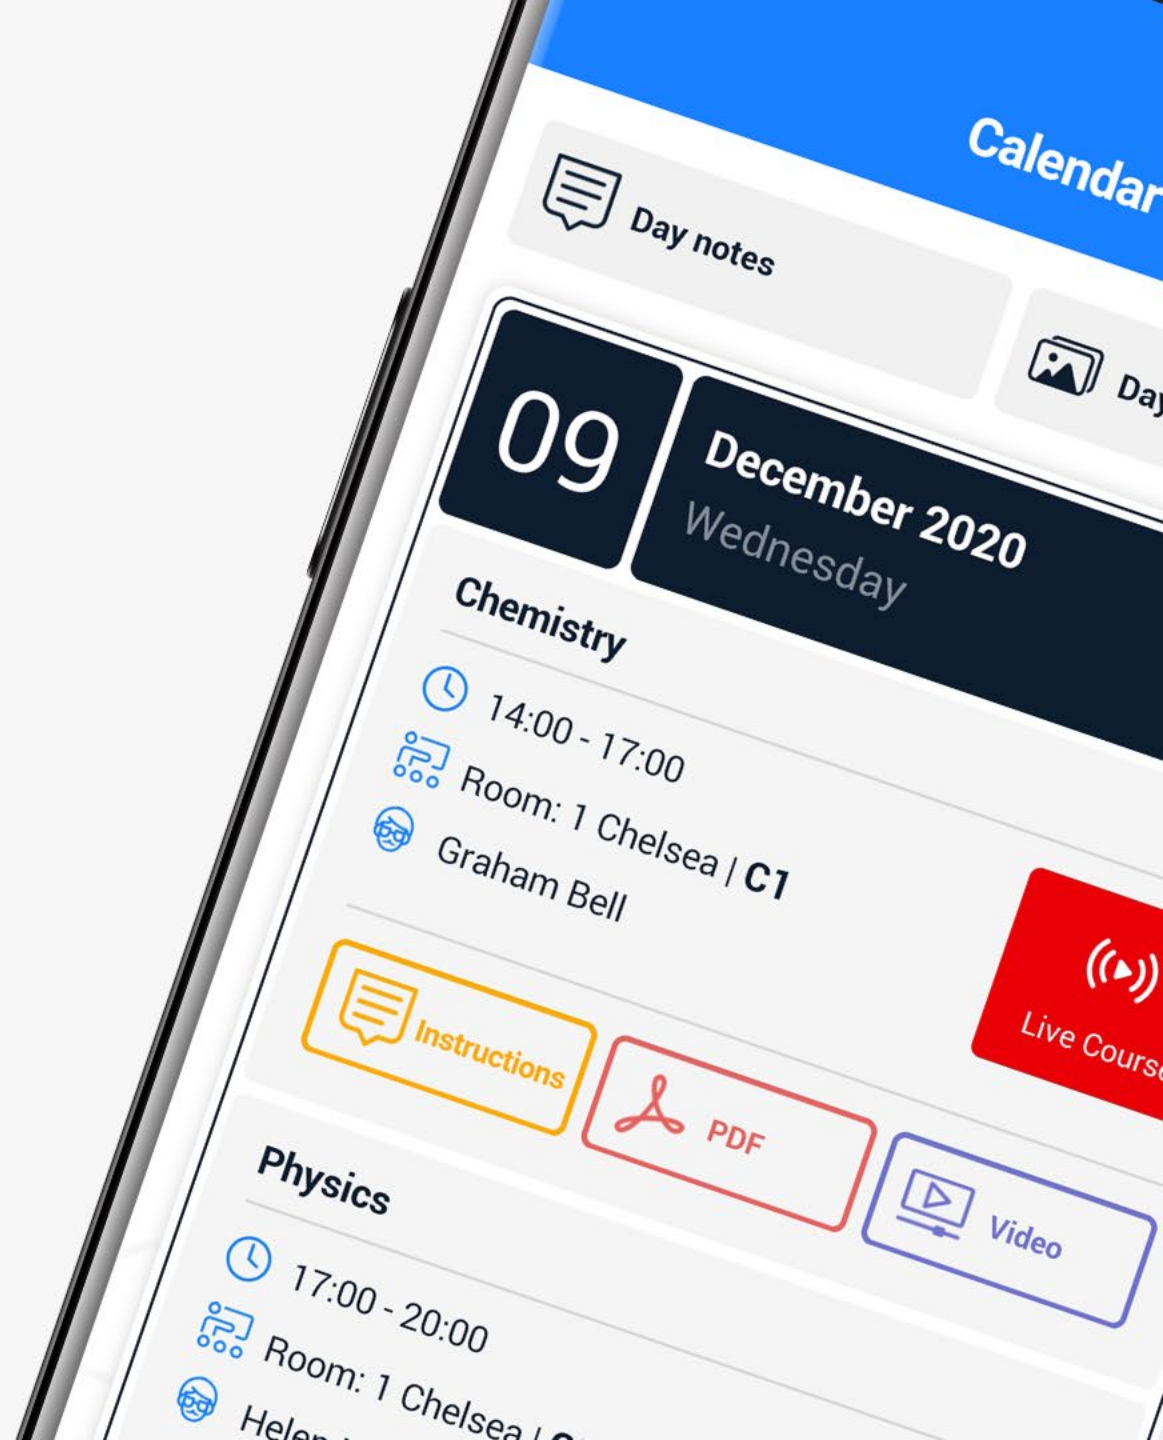

# Experience first!

**Top-notch design** that radically upgrades each user's daily interaction experience with the educational organization.

**\*No training is required**  
to use the application for any of the roles involved.

# Get digital!

By utilizing the **information technologies in everyday educational activities**, the digital profile of your educational organization is uniquely highlighted.

The background is a solid blue color. On the right side, there are several white geometric shapes: a large semi-circle at the top, a smaller semi-circle below it, and a larger semi-circle at the bottom. These shapes are partially cut off by the right edge of the frame. The text "How it works" is centered on the left side of the image.

How it works

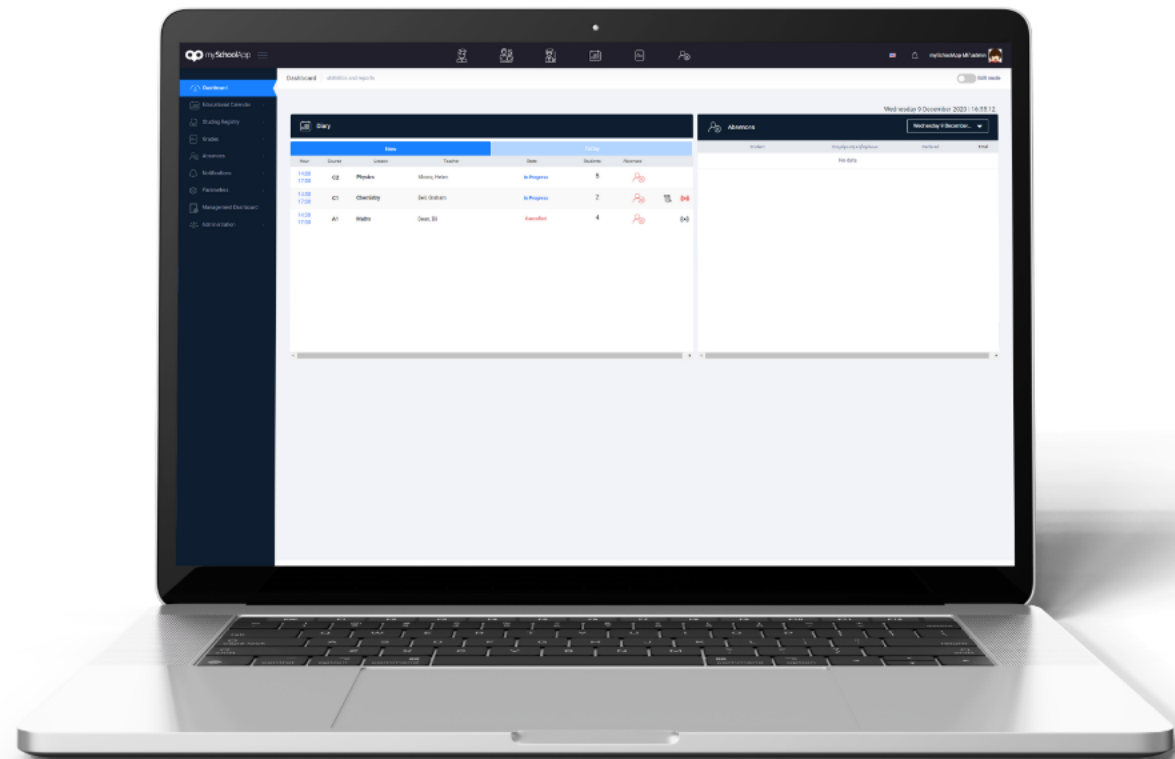

HOW IT WORKS

# For the educational organization

<https://portal.myschoolapp.gr>

## Access to an online management system of the educational organization's data.

- Online management of the organization's operational parameters and app user registration
- Access from any internet-enabled device. Anywhere, anytime.
- User-specific access rights via unique login credentials assigned to administrative staff.

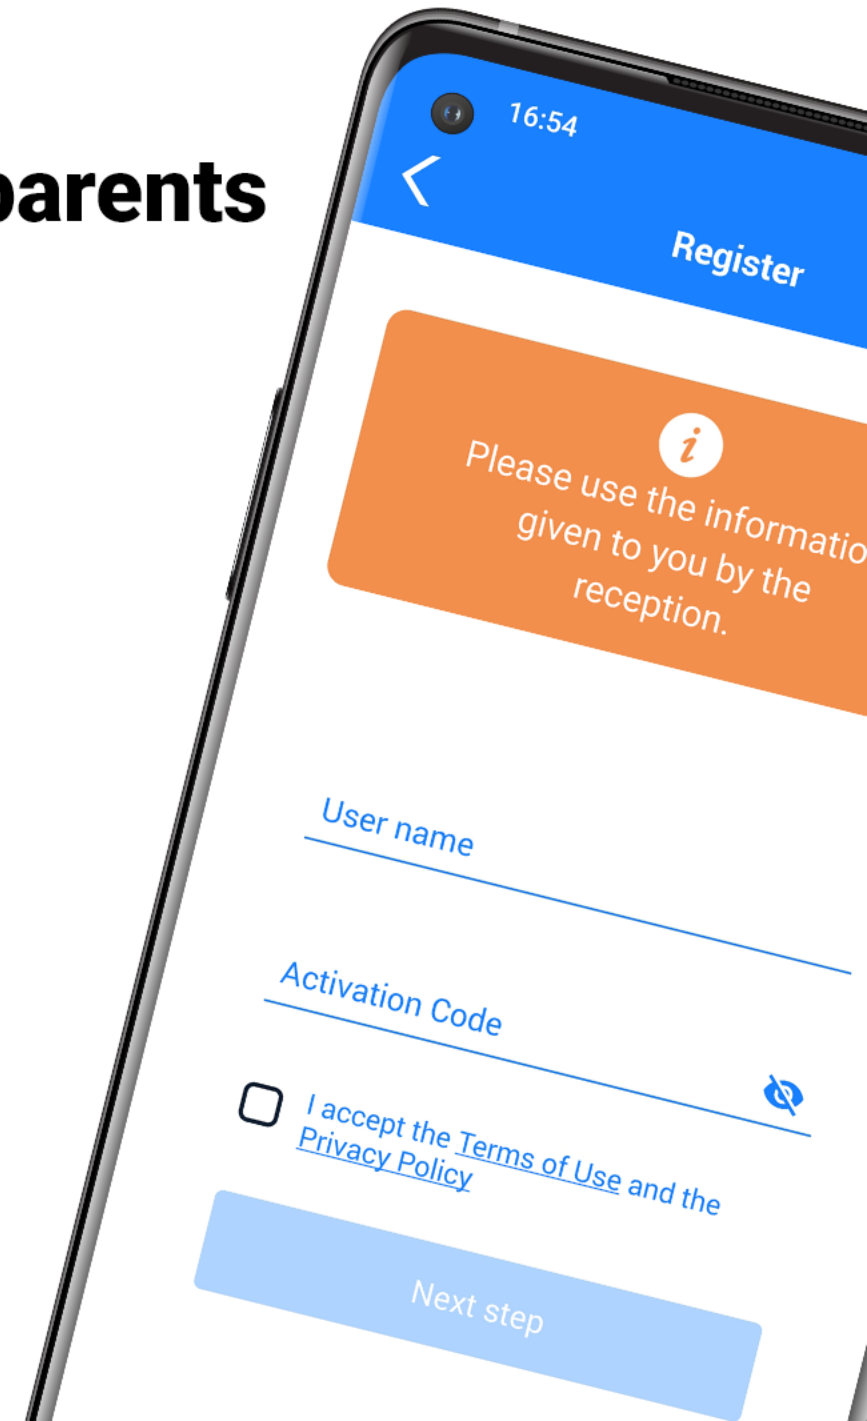

HOW IT WORKS

# For teachers, students and parents

**Access to mySchoolApp mobile application is available through both iOS and Android devices.**

- User management is handled by mySchoolApp's online management console.
- User-specific features sets are being automatically enabled within the app, based on each role.
- Personalized information and training assets are accessible and dynamically updated, all the time

What it offers

# What it offers

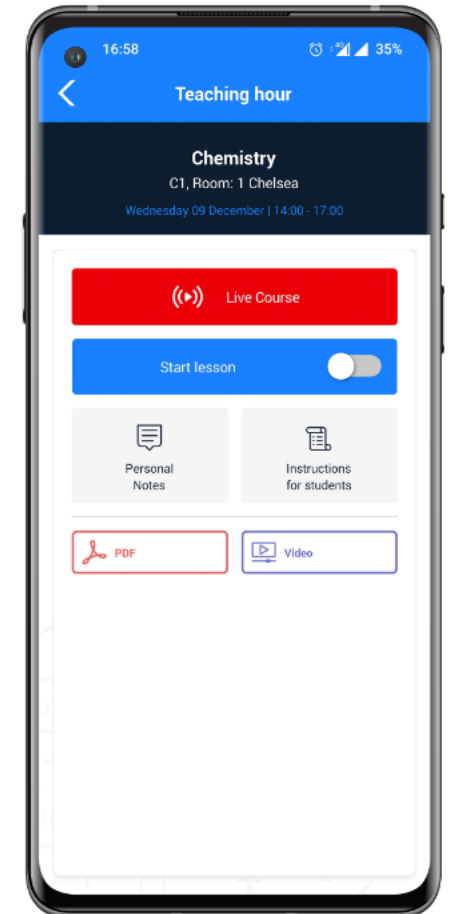

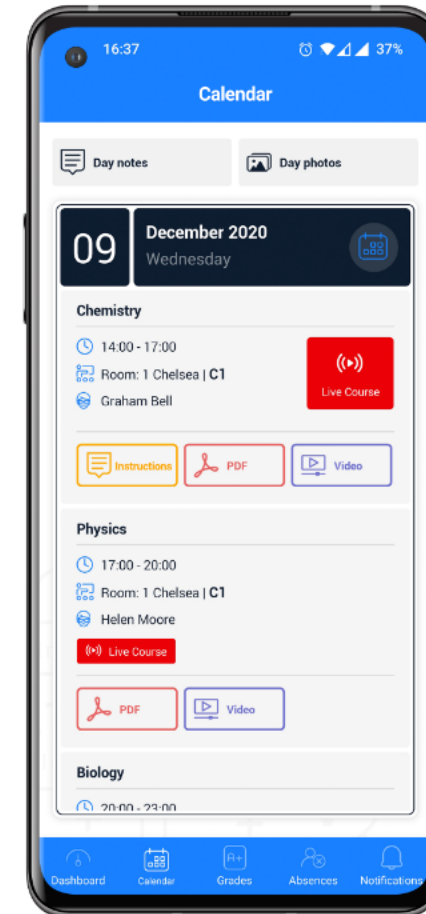

- Fully integrated, online management console for the educational organization.
- Digital support of the educational process, regardless of whether it is conducted live, remotely or in hybrid models.
- A unique tool for handling teachers' daily tasks with advanced communication and information tools.
- An excellent informational and educational tool for the students.
- An ideal tool for the parents' information.

# Mobile Live Learning

With this new feature, you can easily turn a physical classroom into a hybrid or even more, a completely digital one. Students who are not physically present in the classroom, are able with just a click of a button, to join remotely. A unique provision for remotely attending a class which is taking place in a physical classroom, due to the following reasons:

- In case of absence of individual student(s) due to illness or difficulty in commuting.
- To reduce the number of students attending the physical classroom and to ensure that the class complies with the necessary health and safety measures, due to the emergency conditions of the pandemic.
- The overall transformation of a classroom from “physical” to “digital” in case of emergency or any other restriction occur.
